LIQUIDITY MANAGEMENT AND THE LIQUIDITY COVERAGE RATIO (LCR)

Liquidity risk

Liquidity risk is the risk that the Bank may be unable to meet its payment obligations when they fall due and to replace funds when they are withdrawn without incurring unacceptable losses. Liquidity risk can be divided into 2 sub-categories:

Market Liquidity Risk: The ease with which assets can be liquidated; and

Funding Liquidity Risk: The ease with which additional funding can be raised e.g. in the interbank or wholesale markets.

Effective liquidity risk management is a daily process to monitor and project cash flows to ensure adequate liquidity is maintained. The mismatch of cash flows could lead to situations where cash outflows exceed cash inflows in a given period. This may result in the Bank's failure to meet its obligations to pay creditors, repay depositors and fulfil commitments to lend.

In summary, liquidity management is the process to meet the Bank's commitments as they fall due, at an appropriate cost, whilst maintaining market confidence in the Bank.

Bidvest Bank Limited

Management of liquidity risk

Active management of liquidity is critical to the continued solvency of the Bank. At all times, the Bank must be able to meet its financial commitments as they fall due. In this context, the Bank is concerned with the management of future cash flows so that at no stage is the Bank unable to fund net cash outflows from either the market or through the sale of liquid assets.

Liquidity management is applied on an overall balance sheet approach, which consolidates all sources and uses of liquidity and aims to maintain a balance between liquidity and cost of funding. The Bank measures, monitors and manages on-balance sheet and off-balance sheet liquidity mismatch risk taking cognisance of contractual and business-as-usual liquidity conditions, stress liquidity scenarios, guidelines and limits as set by the Asset and Liability Committee (ALCO), regulatory requirements and requirements in terms of best practice liquidity risk management.

The Bank recognises that the analysis of net funding requirements is only one aspect of a sound liquidity management framework. The Bank's ability to withstand a net funding requirement in a liquidity crisis also depends on the calibre of its formal contingency plans. Another critical liquidity management practice is the maintenance of sufficiently diversified sources of funding to limit the exposure to any particular segment of the market. The Bank distinguishes between day-to-day and stress liquidity management.

At March 31 2015, the Bank holds a committed borrowing facility of R125 million from The Bidvest Group Limited.

The Bank also has a standing internal limit (referred to as the Liquidity Cushion) that the greater of R200 million, or 25% of its call deposits plus next day notice deposits pay-outs, will be covered at all times by immediately available funds. At March 31 2015, immediately available funds (comprising central bank, interbank and intergroup call and current accounts) totalled R2.4 billion.

There are a number of other liquidity management techniques, which contribute to the overall soundness of the Bank's liquidity. These include daily monitoring of the liquidity position, adequate diversification of funding, building strong relationships with providers of funding, investment of surplus liquidity, and internal control processes and contingency plans for managing liquidity risk.

Management, in conjunction with ALCO, recommends changes to the Bank's liquidity risk policy documents and these policy changes are reviewed by the Risk and Capital Management Committee for recommendation to the Board for approval. All policy and strategy changes require Board approval prior to implementation.

The Bank complies with the 60% requirement for the Liquidity Coverage ratio. The Liquidity Coverage Ratio (LCR) in essence defines how much liquid assets have to be held by the Bank, which in turn affects the ability of the Bank to lend out short term debt. Further qualitative information regarding the Bank's LCR is set out in table below.

Bidvest Bank Limited

LCR common disclosure template

(R'000)

		TOTAL UNWEIGHTED VALUE (average)	TOTAL WEIGHTED VALUE (average)
HIGH-QUALITY LIQUID ASSETS			
1	Total high-quality liquid assets (HQLA)		285,603
CASH OUTFLOWS			
2	Retail deposits and deposits from small business customers, of which:	1,262,694	126,269
3	Stable deposits		
4	Less stable deposits	1,262,694	126,269
5	Unsecured wholesale funding, of which:	1,083,796	863,629
6	Operational deposits (all counterparties) and deposits in networks of cooperative banks		
7	Non-operational deposits (all counterparties)	1,083,796	863,629
8	Unsecured debt		
9	Secured wholesale funding		41,241
10	Additional requirements, of which:		
11	Outflows related to derivative exposures and other collateral requirements		
12	Outflows related to loss of funding on debt products		
13	Credit and liquidity facilities		
14	Other contractual funding obligations		
15	Other contingent funding obligations	75,636	75,636
16	TOTAL CASH OUTFLOWS		
CASH INFLOWS			
17	Secured lending (eg reverse repos)		
18	Inflows from fully performing exposures	2,179,700	2,126,600
19	Other cash inflows	6,627	6,627
